ARTICLE BY JUNIOR PROGRAMME HEAD

**By Ms. Aastha Bhola,
Head of Junior Programme MDPS
"Growing Minds, Not Just Grades"**

At Mother Divine Public School, our approach to early childhood and primary education is aligned with the principles of the National Curriculum Framework (NCF). The NCF emphasizes that learning should not be limited to rote memorization, but should focus on experiential learning, creativity, and holistic growth.

1. No Rote Learning – More Exploration

Children learn best when they connect knowledge with real-life experiences. Instead of memorizing facts, they are encouraged to explore, question, and discover concepts through activities, stories, and hands-on tasks

2. Skill Development Beyond Academics

Education today goes beyond textbooks. Skills such as problem-solving, teamwork, communication, and empathy are nurtured through projects, role-plays, art, music, and collaborative tasks. Activities like the Student-Led Parent Conference (SLPC) empower children to take ownership of their learning and confidently showcase their progress

3. Experiential Learning through Kitchen Garden

Our newly initiated Kitchen Garden allows children to plant seeds, care for plants, and watch them grow. These activities instill patience, responsibility, and a deeper appreciation for nature while connecting them to science and environmental care in a fun, practical way.

4. Assessments without Pressure

In line with the NCF, assessments are designed to track progress and growth, not to judge or label children. There are no exams in early years; instead, continuous observations and feedback help teachers and parents understand a child's strengths and areas for improvement.

"Education is not the learning of facts, but the training of the mind to think." — Albert Einstein

Tips for Parents: Growing Minds, Not Just Grades

- **Value Habits Over Marks** – Encourage honesty, punctuality, kindness, and responsibility. These shape a child's character more than a score ever can.
- **Appreciate Effort, Not Just Outcome** – Praise your child's hard work, persistence, and creativity, even if the result isn't perfect.
- **Make Learning Joyful** – Link studies to daily life—measuring ingredients in the kitchen, gardening, or storytelling—to help children learn naturally.
- **Model What You Teach** – Children learn more from what they see than what they hear. Show them by example—read, stay curious, and practice discipline.
- **Celebrate Individuality** – Every child grows at their own pace. Avoid comparisons; instead, focus on their unique strengths and talents.
- **Encourage Responsibility** – Involve children in small household tasks. These teach accountability, patience, and teamwork.

FROM THE FACILITATOR'S DESK

Ms. DEEPTI

Ms. PRIYANKA

"The greatest sign of success for a teacher is to be able to say, 'The children are now working as if I did not exist.'"

Being a Kindergarten teacher is truly a heartwarming experience—one filled with laughter, learning, and little wonders each day. Our classroom is a place where small hands create big dreams, where soft voices begin to grow stronger, and where curiosity leads the way. From learning to hold a pencil to sharing toys and making new friends, every moment is a step forward in their beautiful journey of growth.

Each day, we celebrate the small achievements—a new word spoken, a drawing filled with imagination, or the joy in their eyes when they solve something on their own. These moments remind us how magical early learning can be. We focus not only on academics but also on building confidence, kindness, and a sense of belonging.

Thank you, dear parents, for trusting us with your little ones. Together, we're nurturing bright minds and warm hearts—one smile, one story, and one step at a time.

SHINING STAR

NAME- DEVESHI PAPNOI
GRADE-KG D
MONTH -JULY

Deveshi is an active learner who excels in studies and contributes meaningfully in classroom activities.

NAME- LAVANYA KUMAR
GRADE-KG D
MONTH -AUGUST

Lavanya is a bright and hardworking student who always does her best.

NAME- PURVIK JAIN
GRADE-KG D
MONTH -SEPTEMBER

Purvik Speaks confidently and makes effort to use English with new words.

CLASSROOM CHRONICLES
