FROM THE DESK

Dear Students, Parents, Teachers, and Well-Wishers,

It is with immense pride and heartfelt joy that we present to you the inaugural edition of our school newsletter for the session 2025-26 as an initiative that reflects our commitment to nurturing a well-informed, connected, and inspired school community.

This newsletter is not just a medium of communication; it is a mirror to the vibrant life of our school. It aims to document the journey of our learners, capture their growth, and celebrate their achievements whether big and small. It will also serve as a platform for students and staff to showcase their creativity, thoughts, innovations, and aspirations. Whether it's an academic triumph, a heartfelt poem, a snapshot from a memorable school event, or a quiet act of kindness, every story deserves to be told, and every voice deserves to be heard.

In education, we often speak of the importance of reflection and this newsletter will serve just that purpose. As we look back at the footprints we leave behind, we also look forward with hope and determination to what lies ahead. It will help us not only celebrate progress but also learn, grow, and strive for better together.

Our school has always believed in fostering not just minds, but also values of integrity, curiosity, empathy, and resilience. We envision this newsletter as a space that brings together perspectives from every stakeholder (students, teachers, parents, alumni, and staff), each contributing their unique voice to a shared narrative.

I would like to extend my sincere gratitude to the editorial team, the student journalists, teacher coordinators, and all contributors whose efforts have brought this vision to life.

To our students, we hope this inspires you to express freely and reflect deeply. To our parents we thank you for being our constant partners in every endeavor. And to my fellow educators, your silent efforts and tireless contributions shape every success story this newsletter holds.

As we turn the first page of this new chapter, let us move forward with excitement, collaboration, and a shared dream to build a school culture that is thoughtful, expressive, and ever-evolving. Wishing this initiative continued success in the times to come.

Anita Gupta

Senior Programme Head

COVER STORY

“The Earth is what we all have in common.” – Wendell Berry

Earth Day is a global reminder that our planet's health depends on our collective actions. First observed in 1970, Earth Day has become the largest environmental movement across the globe, sparking awareness and inspiring millions to protect the natural world. Every year we celebrate Earth Day on April 22 to celebrate the giver-Mother Earth.

Our planet is in distress and it's calling out to us. Glaciers are melting, oceans are choking with plastic, forests are disappearing, and the weather is growing more extreme each year. These are not just problems for the future, they're happening now. Earth Day is a reminder that we can't stay silent anymore. It's a chance to stop, think, and ask ourselves: Are we doing enough to care for the world we live in?

This day inspires us to take responsibility, no matter how young or old we are. Every small effort like saving water, planting a tree, or saying no to plastic-matters.

Together, we can heal the Earth, protect its beauty, and build a safer tomorrow for all living beings.

This year, Earth Day 2025 focuses on one of the biggest threats to our environment plastic pollution. From landfills to oceans, single-use plastics are poisoning ecosystems and harming wildlife. The campaign calls for a 60% reduction in plastic production by 2040, urging individuals, communities, and industries to act now.

Change begins with simple choices:
Say no to single-use plastics.

Carry reusable bottles, bags, and containers.

Plant trees and nurture green spaces.

Save water and electricity by using it judiciously.

Support eco-friendly brands and sustainable living.

Earth Day reminds us that this planet is not inherited from our ancestors but borrowed from our children. Let's rise above convenience and indifference. Let's educate, innovate, and act with purpose.

PODCAST – Secrets of Happiness

Welcome to the MDPS Podcast – A Podcast by the Students of **Grade XII** was organized by Mother Divine Public School - a unique initiative to share stories, ideas, and conversations that matter to our school community and anyone who resonates with the lives of children around them.

From discussions on academic life, career, life lessons and a bit of fun along the way, we aim to inform, inspire, and connect with students, teachers, and anyone who enjoys a thoughtful chat. In this episode, guest was **Ms. Komal Chopra - a Happiness Coach, Motivational Speaker and a Clinical Hypnotherapist.**

ARTICLES

The Importance of Time Management for Students

Arpita Verma,

IX A

As a student, managing your time effectively is crucial for achieving academic success, reducing stress, and balancing extracurricular activities. In this article, we'll explore the benefits of time management and provide practical tips for prioritizing tasks and staying organized.

Benefits of Time Management

1. **Improved Academic Performance:** By prioritizing tasks and managing time effectively, students can complete assignments on time, prepare for exams, and participate in class discussions.
2. **Reduced Stress:** Effective time management helps students feel more in control of their workload, reducing anxiety and stress.
3. **Increased Productivity:** By focusing on important tasks and minimizing distractions, students can accomplish more in less time.
4. **Better Work-Life Balance:** Time management enables students to balance academic responsibilities with extracurricular activities, hobbies, and social life.

Practical Tips for Time Management

1. **Create a Schedule:** Plan out your day, week, or month, and set specific times for tasks and activities.
2. **Prioritize Tasks:** Identify most important tasks and tackle them first.
3. **Use a Planner or Calendar:** Write down deadlines, appointments, and important dates to stay organized.
4. **Avoid Procrastination:** Break down large tasks into smaller, manageable chunks, and focus on making progress.
5. **Minimize Distractions:** Identify common distractions (e.g., social media, phone notifications) and find ways to minimize them.

The Benefits of Reading

Mahi Malik,

IX A

Reading is one of the most effective ways to improve your knowledge, vocabulary, and critical thinking skills. Whether you're reading fiction, non-fiction, or a combination of both, the benefits of reading are numerous and well-documented.

STUDENT'S CORNER

ARTICLES

Benefits of Reading

1. **Improved Vocabulary:** Reading exposes you to a wide range of words, phrases, and language structures, which can help you improve your vocabulary and communication skills.
2. **Enhanced Critical Thinking:** Reading requires critical thinking and analysis, which can help you develop your problem-solving skills and make informed decisions.
3. **Better Empathy and Understanding:** Reading about different cultures, experiences, and perspectives can help you develop empathy and understanding for others.
4. **Stress Relief:** Reading can be a great way to relax and reduce stress, especially when you're reading a favorite book or genre.
5. **Improved Focus and Concentration:** Reading requires focus and concentration, which can help you improve your attention span and ability to concentrate.

Types of Reading Materials

1. **Fiction:** Novels, short stories, and other forms of creative writing can help you escape into another world and explore different perspectives.
2. **Non-fiction:** Books on history, science, biography, and other subjects can provide valuable information and insights.

3. **Poetry:** Poetry can be a powerful way to express emotions and explore the human experience.

Tips for Developing a Reading Habit

1. **Start small:** Begin with short books or articles and gradually work your way up to longer reads.
2. **Find a genre you enjoy:** Experiment with different genres and formats to find what works best for you.
3. **Make time for reading:** Set aside dedicated time for reading each day or week.
4. **Join a book club or find a reading buddy:** Discussing books with others can enhance your reading experience and provide motivation.

STUDENT'S CORNER

STORIES

Reflections

Maria Khan,

IX C

Mira moved into the old apartment because it was cheap, not charming. Peeling wallpaper, flickering lights, a cracked mirror in the hallway—none of it bothered her.

Until the mirror blinked.

Not a trick of light. A blink. Her reflection smiled when she didn't. Turned her head a split second late. Always just... off.

She covered it with a sheet. But every morning, it was uncovered again.

One night, she stood in front of it, determined. "What do you want?"

Her reflection tilted its head and mouthed: "To come back."

Mira stepped closer. Her reflection didn't mimic her anymore. It watched her.

Then it raised a hand—and tapped the glass from the inside.

Terrified, Mira ran. She returned the next day with a hammer. But the mirror was gone.

In its place was a photo, nailed to the wall.

It showed two little girls: identical twins. One smiling, one expressionless. On the back:

Mira – Age 5. Twin deceased.

She didn't have a sister. She never had a sister.

But as she turned to leave, her reflection reappeared in the window—

smiling,

waving,

and mouthing the word:

"Liar."

"The Mystery of the Vanishing Lunchboxes"

Gati Mittal,

IX C

In the cheerful corridors of Greenhill Public School, something strange was happening. Every week, one or two students complained that their lunchboxes had vanished. Not stolen—just gone, as if they'd disappeared into thin air. The staff checked the CCTV, but nothing suspicious ever showed up.

Eleven-year-old Rhea, an aspiring detective with a nose for trouble and a backpack full of notebooks, was determined to solve the mystery.

"I bet it's a raccoon or something sneaking in through the windows!" said her best friend, Aarav.

"No way," Rhea replied, flipping open her detective notebook. "We need to investigate logically."

The two friends decided to stay back during lunch break one afternoon. Hidden behind the big bookshelf in Class 6B, they waited and watched.

Just when the school bell rang and the hallway emptied, they heard a soft rustling near the storage cupboard. Peeking carefully, they saw a small boy in ragged clothes, sneaking in through the back window and opening a bag filled with lunchboxes.

STUDENT'S CORNER

STORIES

"Wait—he's not eating them all... he's packing them!" Aarav whispered.

After he left, Rhea and Aarav quietly followed him across the street and through a narrow alley behind the school. To their surprise, the boy entered a tiny shelter, where three even younger children were waiting eagerly. He handed them the lunchboxes with a smile.

The mystery was solved, but it left Rhea and Aarav quiet for a moment.

Back at school, they told the principal what they had seen. Instead of being angry, the principal nodded and said, "You did the right thing by telling us. Now we can help."

The next week, the school launched a "Lunch for All" campaign. Students who could share their food brought extra lunchboxes, and the school arranged fresh meals for children in the nearby shelters.

THE BOY WHO WAS CURSED

Saanvi Mandal,

IX C

One day not so long ago there lived a very angry little boy. Everything in life and everything about life made him angry. The more angry he became the more frustrated he became and the more frustrated he became well that just made him more angry.

He began to hurt the people around him who loved him the most. With each new insult and angry outburst and he was hurting those that cared.

He was not seeing the consequences of his anger. He couldn't understand that these actions were causing others pain and hurt, he was too consumed by his own rage to even notice.

After a particularly bad outburst his mother had sent him to walk in the woods and think about things until he had calmed down. It was the rainy day, walking in the woods, that he met a witch that was about to change his life for the better. She was the one who can control the anger of the child. The witch told him to plant a seed for every anger moment and water it with kind actions. Slowly, his forest began to grow. Each tree remained him of his change. Over time, his anger faded, replaced by peace. The curse broke, and he finally learned to control his emotions.

‘THE QUEEN’S CHALLENGE’

Vidhi Mittal,

IX D

Once upon a time, in a magical Kingdom far beyond the mountains and beneath silver skies there was a wise and beautiful queen. Her kingdom was the most peaceful in the world.

One day she stood before the people in her grand court and declared "I shall marry only the one who can recite the number from 1 to 20 in such a way that they can describe the whole universe".

The people were puzzled. "How can numbers describe the whole universe?". They wondered.

Many tried. Some recited equations. Other spoke some riddles. None could satisfy the queen.

STUDENT'S CORNER

STORIES

Until one day, a humble storyteller named Aarav stepped forward. He smiled, bowed, and began to speak.

1 is the beginning - the spark, the seed, the single breath that starts all life.

2 is the pair - the sun and the moon, night and day, love and fear.

3 is the balance - mind, body, spirit: past, present, future.

4 are the elements - earth, air, fire, and water that shape our world.

5 are the senses — the ways we feel the universe move through us.

6 is harmony - the strings in music, the petals of a flower, the sides of a snowflake.

7 are the wonders - both ancient world and the human soul.

8 is infinity turned sideways - the endless loop of time and space.

9 are the planets once known, spinning in cosmic dance.

10 is completeness - our fingers, our decimal world, the circle closed.

But he continued.

11 are the stars that guided ancient travelers.

12 are the months - the rhythm of time.

13 is the number we fear - chaos that teaches us humility.

14 is love - the four letters multiplied by the two hearts it unites.

15 are the minutes in a moment that changes everything.

16 is the age of dreams - where wonder and wisdom first shake hands

17 is the wind's whisper - soft, swift, and unseen.

18 is the age of choices - the gateway to destiny.

19 is the pause - the moment before the finish line.

20 is vision - the clarity with which we finally see the universe inside ourselves.

The court fell silent. The queen's eyes sparkled. She stepped down from her throne and smiled.

"You have not counted numbers, she said.

"You have counted the stars, the heartbeats, the truths of the world. And so... I choose you?

And with that, a new story began - not just of love, but of understanding how numbers could hold not only meaning, but magic.

STUDENT'S CORNER

POEMS

Rise And Reach

Priyanshi,

IX C

Beneath the sky, so vast and wide ,
A spark within you waits to Rise.
In every heart, a hidden flame,
A force that calls you by your name.
The road ahead may twist and turn,
With lessons deep for you to learn.
But step by step, with faith and
might,
You'll find your way, you'll find your
light.

When shadows fall and doubts
appear,
Remember this: you're stronger here.
For in the darkest, quiet night,
The stars above still shine so bright.
So Rise, and Reach beyond your
fear,
The path is yours, the way is clear.
With every breath, A brand-new
start,
The power lies Within your heart.

No dream too big, no goals too far,
You are a blazing, brilliant star.
So shine, and let the world be shown,
The strength that lies within your
own.

She Rises

Maria khan,

IX C

She is not a whisper in history's hall,
Nor just a shadow beneath the tall.
She is thunder wrapped in quiet grace,
A warrior carved from every place.
Not just a mother, sister, wife—
She is the pulse, the voice, the life.
She builds, she breaks, she dares to
dream,
Through silence thick and narrow
scheme.
They told her "less," she answered
"more,"
Unlocked her mind, unlatched the door.
No longer waiting to be saved—
She writes the rules once they were
paved.
Feminism isn't rage or war,
It's choosing self and something more.
It's equal pay and rightful place,
Respect that's not tied to her face.
It's teaching girls they own their name,
That love is strength, not just a flame.
That "no" means no, and tears are
brave,
That they're not born to just behave.
So here she stands—wild, wise, and free,
Not what you want, but meant to be.
She doesn't ask to be allowed—
She rises bold, and speaks aloud.
Not for power, but for right—
To stand as tall, and burn as bright.

STUDENT'S CORNER

POEMS

HAPPY FATHER'S DAY

Vanshika Sharma,

IX D

“We can't express our
feelings;
How we feel about you.
In every second of life we;
Want you.

You are the light;
Who teaches us to shine.
You are the grace;
Who makes us win every
race.

You are the one;
Who gives us fun.
You made us capable.
Now it's our duty to show
our honour;
To the greatest immortal
soul.”

MY SCHOOL PROMISE

Anshika Goyal,

IX D

Each day I'll do my best
And I won't do any less.
My work will always
please you
And I won't accept a
mess.

And I will not be happy
Until my work is all
complete.

I'll always do my
homework,
With learning as my
quest.

I won't forget my
promise
To always do my best!!

STUDENT'S CORNER

FROM THE DIARY

Sunday

4th May, 2025

11:00 pm

Dear Diary,

Today was the best day of my life as today I went for a MUN Conference in VSPK International School.

Approximately a week ago, my social science teacher informed all the students about the MUN and took the auditions of the interested students. Then after a day, she announced the name of the students who had passed the audition. I was one of them all. It was like a dream came true. As since childhood my dream was to sit in a committee or conference with many people and talk upon various ideas. So, today I went to VSPK International School for the MUN Conference. I was going as the Delegate of South Africa in the committee of UNESCO and our agenda was 'Preserving Cultural Heritage in Conflict Zones'. When we entered, we were welcomed with some snacks and soft drinks. There was an opening ceremony and introduction with the judges. Then after a while, the conferences began in the respective rooms of different committees.

It took about 3 hours to finish the conference. Then at last, there was a closing ceremony and the announcement of results. I was very much nervous about the results. Then it was announced that the third position, the verbal mention goes to the Delegate of South Africa. At first, I couldn't believe but it was true. At that moment, I was on cloud nine because it was my first experience to MUN and at my first attempt I got the third position. My teachers and my parents were very proud of me. That's why this day is very much special for me and my family. Thank you, GOD, for this wonderful and amazing day.

STUDENT'S CORNER

ACHIEVEMENT

Our students participated enthusiastically in a wide range of interschool competitions. These events

provided our students with a platform to showcase their talents, foster team spirit, and enhance their confidence.

Competitions Participated In:
SPARDHA in Adarsh School
SYNERGY in DAV Public School
OPERATION PEACE in Mount Abu Public School
MUN in VSPK International School
Students of Classes IX and X showcased their exceptional debating and diplomatic skills at the VSPK MUN and

brought home several awards and certificates.

Adding to the glory, Mother Divine School was honored with the prestigious **Best School Delegate Award!**

भारतीय संस्कृति की विविधता और एकता

नम्रता दुबे
हिंदी विभाग

विभिन्न धर्मों, भाषाओं और परंपराओं के बावजूद हमारी भारतीय संस्कृति एक ही सूत्र में बँधी हुई है। भारतीय संस्कृति भारत की ही नहीं बल्कि पूरे विश्व की सबसे पुरानी और समृद्ध संस्कृतियों में से एक है। हमारी संस्कृति की जड़े वेदों और उपनिषदों में हैं, जो हमें जीवन के मूल्य और सिद्धांतों की शिक्षा देते हैं। आज के समय में जब हम वैश्वीकरण और आधुनिकीकरण की ओर बढ़ रहे हैं,

आज के समय में जब हम वैश्वीकरण और आधुनिकीकरण की ओर बढ़ रहे हैं, हमारी संस्कृति की महत्ता और भी बढ़ जाती है।

हमें अपनी भारतीय संस्कृति को सहजने और आगे बढ़ाने के लिए सदैव तत्पर रहना चाहिए। हमारी संस्कृति की विविधता और एकता हमें गर्व और आत्मविश्वास से भर देती है।

हमें अपनी संस्कृति को समझने और उसका सम्मान करने की आवश्यकता है ताकि हम एक मजबूत और समृद्ध भारत का निर्माण कर सकें।

PARENTING

Raising Resilient Children: The Case for Stepping Back

“Parenting is not about being perfect; it's about being present”

Anita Gupta
Senior Programme Head

In the evolving landscape of parenting, one of the increasingly discussed approaches is that of helicopter parenting, a term that refers to parents who are excessively involved in their child's life, often to the point of over-managing their experiences, decisions, and even challenges. While this involvement stems from a place of deep care and concern, it is important to reflect on the long-term impact it may have on a child's growth and independence.

Helicopter parenting, though rooted in love, can inadvertently hinder the development of essential life skills such as decision-making, problem-solving, and resilience. Children who are constantly shielded from failure or difficulty may struggle to develop the confidence and self-reliance needed to navigate real-world situations. They may become overly dependent on adults for validation and guidance, rather than learning to trust their own judgement and abilities.

As educators, we observe that children thrive best in environments where they are allowed to explore, make mistakes, and learn from their experiences. Growth—both academic and personal—comes not from constant supervision, but from gradual exposure to responsibility and autonomy. It is through small challenges and occasional setbacks that students build the character and confidence necessary to face larger ones in the future.

This is not to suggest that parental involvement should be minimized. Rather, it is about finding a healthy balance—offering support without overstepping, guiding without controlling, and standing by without overshadowing. Children benefit immensely from knowing that their parents are present and supportive, yet also respectful of their independence and capable of trusting them with age-appropriate responsibilities.

Remember, “Parenting is about preparing children for the road ahead, not preparing the road for the child. When we allow them the space to struggle and strive, we gift them the strength to rise and thrive.”

Club Activities

Education goes Beyond textbooks and classrooms. School clubs play a vital role in shaping students' personalities, developing essential life skills and fostering a sense of responsibility.

Mother Divine Public School has introduced a range of clubs tailored to nurture the diverse interests and talents of students. In the months of April and May, the following club activities have been successfully conducted.

LITERARY CLUB

The club wrapped up English and Hindi languages activities to nurture language proficiency and Literary expression among the students of senior program. In English language, the fun activities such as Dumb Charade for Grade IX and X Based on Adjectives and Abstract Noun in English. In Hindi language, students enhanced their creativity and expression prowess through 'Swarachit Kavita Pathan.

EDUCATION

MUN CLUB

The club winded up the activity by Organizing a knowledge-based quiz activity titled 'Diplomatic Dash'. The activity aimed to spark interest in global affairs among the students.

COMMERCE INNOVATION CLUB

The club wrapped up the activity with the 'I See, I Wish activities (To identify real-world problems and generate Innovative ideas to address them). The activity successfully encouraged the students to think creatively and develop innovative solutions to real-world problems.

STEAM CLUB

The club is an extracurricular activity that integrates the Science, Arts and Mathematics to promote creativity, innovation and problem-solving skills. Students engaged in a variety of hands-on experiments designed to spark curiosity and deepen understanding of scientific concepts.

BRAINIACS [MATHS CLUB]

CLIMATE CREW

As a part of environmental awareness and health safety initiatives, the 'Go Natural' activity was organised to promote the use of eco-friendly and chemical-free alternatives for daily use. Students actively participated in making natural mosquitoes repellent and sprays using essential oils and locally available natural ingredients.

The activities of Maths club conducted during the sessions were 'Finding Squares', 'Blood Relations' and 'Coding Decoding'. Students actively participated in a quiz that tested their understanding of the concepts learned during the sessions. The concept of Calendar was discussed with the students of grade XI.

TECH TITANS (IT CLUB)

Overall, all these activities contributed to enriching the school experiences, promoting personal growth and developing valuable skills that benefited students immensely in many areas of life.

The Tech-Titan team conducted **BUDDING TECHNOCRATS** activity in which students created and presented a ppt on Safety and Security issues related to Cyber Crimes.

Workshops

1. Internship Opportunities Workshop (16th March 2025)

A workshop for Classes IX, X, and XII, led by Mr. Gulam Ahmad and Ms. Sarah Fernandes, introduced students to internships in fields like design, data science, journalism, psychology, and law. It highlighted mentor-led programs, skill-building workshops, and a structured application process, aiming to boost career readiness through hands-on experience, industry exposure, and certification.

2. Career Management Workshop – Science & Commerce (25th March 2025)

A workshop led by Mr. Ankit Singh focused on guiding Class XII Science and Commerce students in career planning. It covered entrance exams like JEE, NEET, and CUET, and emphasized aptitude and strategic academic choices. Key factors for selecting colleges were discussed, including placements and faculty quality. Students gained insights into subject combinations and higher education pathways. The session concluded with the message: “Aptitude is the real power.”

3. Career Counselling – Law Focus (28th March 2025)

Mr. Aditya Shekhar conducted a session for Commerce and Humanities students on careers in Law. It highlighted CLAT, AILET, CUET, and other relevant exams, while also touching on various legal fields like cyber, civil, and criminal law. The workshop emphasized planning, skill-building, and the importance of top institutions. Students learned about pathways to reputed law schools and emerging legal careers. Suggestions were made for more stream-specific content in future sessions.

4. Design & Architecture Career Guidance Workshop (29th April 2025)

The session, led by Abhinav Gupta, explored career opportunities in design and architecture. Students were introduced to entrance exams like NID DAT, UCEED, NIFT, and NATA. Emphasis was placed on creative skills, portfolio building, and technical drawing. The workshop also discussed top institutions and global career prospects. It was highly beneficial for students interested in the creative and design fields.

Current Affairs

1. Who was elected as the President of the 80th session of the UN General Assembly? **Annalena Baerbock**
2. **World Environment Day – 5 June**
3. **International Day for the Fight against Illegal Unreported and Unregulated Fishing – 5 June**
4. Government extends tenure of Punjab & Sind Bank MD **Swarup Kumar Saha** till February 2027.

Current Affairs – April, 2025

Into Proton Adsorption for Green Hydrogen Production

Recent advancements in catalyst research have uncovered new vital information about proton adsorption behaviour. This is very important for developing electrocatalysts aimed at producing green hydrogen.

Maharashtra's New Electric Vehicle Policy 2025

Maharashtra has introduced a comprehensive electric vehicle (EV) policy aimed at increasing EV adoption. This policy seeks to alleviate range anxiety and enhance charging infrastructure.

Canada PM Mark Carney

Mark Carney's recent election as Prime Minister of Canada marks shift in the political landscape. He assumes leadership amid ongoing tensions with the United States under President Donald Trump.

Gaza Aid Distribution Challenges

The humanitarian crisis in Gaza has reached alarming levels. Recent events highlight the dire situation of food insecurity and the challenges faced by aid organisations.

Current Affairs – April, 2025

Military Spending Disparities Between India and Pakistan

Recent events have brought into light the differences in military capabilities between India and Pakistan. Following the Pahalgam terror attack, the Stockholm International Peace Research Institute (SIPRI) released its 2024 report on global military expenditure.

Global Glacier Melting Accelerates Amid Climate Crisis

Recent studies indicate that glaciers are melting faster than anticipated. This alarming trend coincides with the first United Nations conference on glaciers held in Tajikistan.

Unified Pension Scheme for Retired Government Employees

The Unified Pension Scheme (UPS) was introduced by the central government to provide additional benefits to retired National Pension System (NPS) subscribers.

Swachh Survekshan Grameen 2025

The Swachh Survekshan Grameen (SSG) 2025 was launched by Union Minister of Jal Shakti, Shri C R Patil, in New Delhi.

Operation Shield

In recent times, India has faced heightened security concerns, particularly along its western frontier with Pakistan.

SUCCESS STORY

... BY OUR STUDENTS

Title: A Victory for Maldives at the UNESCO MUN Committee

In a display of diplomacy, and a deep understanding of global issues, the Model United Nations (MUN) Club at VSPK international school recently hosted a stimulating session of the UNESCO committee—one that ended with a triumphant win for Shivansh Pokhriyal seeking the verbal validation award, who brilliantly represented the island nation of Maldives. The session, centered around the theme “Preserving Cultural Heritage in the Face of Climate Change”, brought together aspiring delegates from across the committee, each tasked with navigating the intricacies of international policy, negotiation, and cultural preservation. Representing the Maldives—a country uniquely vulnerable to rising sea levels and environmental degradation—I stood out for articulating the urgent need for global cooperation in safeguarding cultural identities that are at risk of being washed away by climate change. Throughout the session, I effectively merged national interests with broader global concerns. Citing real-world initiatives and data, they highlighted the Maldives’ efforts to integrate cultural preservation into climate resilience strategies. From coastal community traditions to architectural heritage, their arguments underscored that losing cultural landmarks would not just be a national loss, but a loss for humanity. One of the most impactful moments of the committee came during a moderated caucus where I proposed a collaborative resolution aimed at mobilizing UNESCO resources for vulnerable island nations. Their resolution, co-sponsored by several other countries, gained wide support and was eventually passed with overwhelming consensus.

The MUN Club continues to foster such impactful experiences, nurturing future leaders and global citizens. As the club looks forward to future simulations and conferences, [Your Name]’s success stands as a shining example of what dedication, preparation, and passion for international dialogue can achieve. I request numerous students to take part in this extravaganza as it ensures that there is no social anxiety but only bold confidence.

Shivansh Pokhriyal

My Success in Kho-Kho
By Priyank Joshi

When I was in 8th class, I had the incredible opportunity to participate in our school’s Indigenous Sports Day. I chose to play Kho-Kho, a game I have always loved for its speed, strategy, and teamwork. With dedication, regular practice, and strong support from my teammates and coach, I was able to give my best performance on the field.

I was overjoyed when I secured the 1st position in the Kho-Kho event. This victory taught me the value of hard work, discipline, and never giving up. It remains one of the most memorable achievements of my school life and continues to inspire me to strive for excellence in everything I do.

SUCCESS STORY

... BY OUR STUDENTS

Success isn't about perfection—it's about progress, patience, and persistence. Scoring 95% in my 10th board exams has been one of the most fulfilling moments of my life. This journey was filled with highs and lows—there were days I studied with full focus, and the days when I didn't study at all. But what I've learned is that we don't have to sacrifice the things to do well. It's not about studying all the time; it's about finding balance. I made time for things I enjoyed, took breaks when I needed them, and focused on understanding rather than memorizing. Consistency, smart revision, and staying calm under pressure helped me the most.

There's no "perfect" way to prepare. What works for someone else might not work for you, and that's okay. Believe in your journey, ask questions when you're stuck, and don't be afraid of making mistakes. Progress comes from effort, not perfection. To all the students preparing—trust yourself, stay steady, and you will make it one day.

Accolades Of MDPS

(Session 2024-25)

I prepared for my 12th boards exams by: -

- Being consistent in class
- Regularly following teachers advice.
- I paid close attention during lessons, which helped me understand the concepts better.
- All teachers put in a lot of effort to explain topics clearly.
- They also provided valuable worksheets for practice.
- Solving these worksheets regularly helped me improve my problem-solving skills and boosted my confidence.
- Their guidance and my dedication played a major role in my preparation.
- One should always Ask doubts and should pay attention on clearing concept.
- Do not do rote learning as there will be competency-based questions in exams.

Sincerely-

Saloni (12TH-D)

My whole journey my teachers have been my biggest supporters from providing study material to providing moral support I could always count on my teachers who stood there for me.

During my preparations I believed in the quality of time that I spent on studies rather than quantity.

Quick break gave me little time to myself and refreshment.

All the while I focused on practicing more and more. In a nutshell my determination and teacher's encouragement led me to my goal.

Angel Dwivedi (12TH-D)

Success is deeply personal, and my score in the board exams represents more than just a number. It is the result of early mornings spent revising, the weight of expectations balanced with self-belief. It represents the belief my parents and teachers had in me. This score isn't about being the best, it is about pushing my limits. There were times when I wanted to quit , I used to hate some subjects, some concepts that refused to stick no matter how much I tried but each struggle taught me resilience. My teachers' patience and my parents' quiet sacrifices made this possible. Today, I don't just feel pride I feel a responsibility to keep growing. This is the first step towards success.

Jahaanvi (12th-C)

I'm thrilled to share my success story of scoring excellent grades in my 12th board exams! I'm grateful to my teachers for their guidance and support, which helped me achieve my goal. Their motivation and encouragement played a significant role in my success. I also appreciate my parents and family for their unwavering support. Thanks to everyone who believed in me! I'm excited for the future and ready to take on new challenges.

Samar Dhawan (12TH-C)

(Session 2024-25)

“YOUR JOURNEY HAS JUST BEGUN MAKE IT COUNT “

Honestly , It feels so surreal that I am no longer a school going girl . School life is a beautiful journey so much to learn , everyday is full of joy , energy , spirit to aspire for more and more . I am really grateful for a fabulous school life ,it was not only limited to academics it was more about experience ,knowledge ,bonds we have built with peers that will always hold a special place in my heart ,our dear divinian teachers who don't leave an opportunity to make teaching more fun , indulging and interesting . A heartfelt Thanks to each of them for protecting and nurturing us inside shielding walls of school. I had actively participated in all debates , morning assemblies , plays , dance performance only for a reason of gaining experience to try something new that truly shapes my true self. But now, when I look back, I sometimes feel I could have done even more—taken more chances, explored more talents, and stepped out of my comfort zone just a little further. Still, every experience shaped me, taught me something new. You should too try gaining these experiences to help you develop your personality and grow your true self.

About Academics, achieving a good percentage in the 12th grade was not an overnight success—it was the result of consistent effort, smart planning, and strong willpower.

I made sure to balance studies with regular breaks and always kept my basics clear in each subject.

To my juniors, I would say this: believe in yourself, start early, and stay consistent. Hard work always pays off, and the small steps you take every day will lead you to big results. Let your school life be not just about marks but about discovering your true potential. I'm thankful for the guidance of my teachers, the support of my friends, and the encouragement of my family.

In a nutshell, “JOURNEY OF THOUSAND MILES BEGINS WITH A SINGLE STEP.”

STUDENTS OF THE MONTH

Unleashing the Potential and Power of Improvement

To celebrate perseverance, dedication and the power of continuous improvement, the school motivates the spirit of Budding Divinians. With an aim to foster a culture of excellence and encourage students to strive for their academics and character development, the school celebrates achievements and performance of the students. It not only boosts the morale of the achievers but also inspires others to follow their footsteps and eventually brings positive change in everyone.

Student of the Month is the recognition given to students for their exemplary performance in the following criteria

1. Discipline
2. Attendance
3. Participation (school & co curricular activities)
4. Character /Behaviour/ Attitude
5. Social Skills (Nature & mannerisms)
6. Academics (performance in the monthly test, completion of classwork, homework and projects)

CONGRATULATIONS STAR STUDENTS
KEEP YOUR SPIRIT ALWAYS HIGH
